

GARDEN GATE MOTORS

added value in your living space

FOR COMFORT AND SAFETY OF ANYTHING YOU CARE IN YOUR LIFE

We always ask ourselves this question: How can we provide both comfort and safety at the same time? Yes, in fact, comfort and safety are two conflicting words... But we ourselves create miracles with these two words... just with some knowledge, intelligence and ability... which are our key words en route to serve humanity. With these key words, we fit comfort and safety into a frame and here emerges White Rose. We, as White Rose, questioning continuously, have rendered our products suitable for people, not the other way around.

What are their needs, how can we assist them in their daily life? First, we discussed all these questions with our professional team and then we could answer them observing the needs of our people.

Thus, under three titles, we made use of our cutting-edge technology for humans comfort and safety. With our Industrial Automation, Urban Automation and Home Automation products we obtained answers of our questions and so we became an unrivaled company in Turkey, ranking among leading companies in the World. Thanks for deciding to get familiar with advanced technology we offer.

YOU JUST ENJOY YOURSELF,
WE DO THE REST.

WHAT ARE GARDEN GATE MOTORS?

It is a comfortable technology which makes your life easier. The motors, providing a fast and automatic movement to sliding or standard opening garden gates at the entrance/exit of your house or working place. They are available in capacities that permit not only easy opening and closing of lightweight gates but of heavy tonnage garden gates at factory entrances as well. Not limited with sliding gates, our Garden Gate Motors can be used for automation of standard 90 degree opening garden gates. Being produced with the intention to provide an effort-free activation to your gate, Garden Gate Motors are remotely controllable. All you have to do is enjoying the comfort.

WE BRING YOU TO THE TOP OF THE COMFORT YOU DESERVE.

People can enjoy the life as long as they feel comfortable. For that reason, we produced Garden Gate Motors. A comfort like when you leave for work, your servant opens the door for you. Capable to open and close in a short time, Garden Gate Motors never waste your time, they even save you time thanks to their upon exit automatic closing feature. In case of blackouts, thanks to manual actuation capability, you can open and close your gate without difficulty. Even in unfavorable weather conditions, Garden Gate Motors never let you down. Thanks to their robust outer casing, they can be used for many years. All these will be more than enough for bringing your comfort to the top level.

YOU WILL BE FASCINATED
WITH OUR TECHNOLOGY

JET SERIES

high level performance

Jet Motor is an industrial type motor, designed to avoid wasting time at gate, for high security requiring places e.g. military, police, business centers and factory entrances where assassination attempt is a matter of concern. Being developed for intensive use, JET motors endure non-stop operation which is unlikely to be obtained from standard motors.

WE RENDER JET SERIES ADAPTABLE TO YOUR LIFE.

JET SERIES

With serial options capable to actuate your lightweight or heavy tonnage gates according to your needs, Jet motor series works completely in tune with you. And, in case you prefer its auto closing function enabled, your gate closes after vehicle exits, even if you forget to close it. So, it doesn't leave you feeling something left undone.

With its **Auto Closing** feature, it does not forget, even if you forget.

TORK SWING GATE MOTOR

smart technology

With microprocessor control panel designed by our engineers, Tork Swing Gate Motor ensures an easy and safe use. Tork Swing Gate Motor can identify opening and closing distances automatically.
